

Senior Tailor/ Master Cutter Job Description:

Primary Responsibilities

- Making garments (e.g. gowns, dresses, blouses, shirts, pants, skirts, and jackets):
 - Marking patterns and designs or using pre-designed ones to cut fabric into the necessary shapes;
 - being able to draft, drape, and translate designs from concept to delivery;
 - being able to imagine how the end garment will look like from the pattern design; and
- Altering and repairing garments:
 - Fixing torn or damaged clothing, as well as adjusting clothes to better fit customers; and
 - ensuring proper measurements, adjustments, and fittings.
- Working directly with customers:
 - Discussing with customers regarding their desired specifications for clothes;
 - giving customers recommendations regarding fabrics, colours, and styles;
 - showing customers samples of different fabrics and explaining the qualities of each one;
 - taking measurements; and
 - ensuring alterations are done on time for when the customer returns.
- Defining technical specifications for the garments and being knowledgeable about fabrics, patterns, shapes, and colours:
 - Selecting and testing different fabrics;

- knowing about pattern-making and fittings, adapting and creating patterns as needed; and
- keeping up-to-date with the latest fashion trends and techniques, as well as finding the best quality fabrics.
- Using specialized equipment such as industrial sewing machines and irons.
- Organizing and maintaining fabrics, trims, and other materials.
- Preparing a budget based on time of work, costs of fabrics, and any special materials necessary.

Daily Tasks

- Creating, altering, and repairing garments.
- Working with different fabrics.
- Estimating costs and materials.
- Maintaining a network of customers, vendors, and suppliers.
